Private Jets Guide, which aircraft?

ACS have access to the largest selection of **private charter aircraft** in the US. Your dedicated ACS Account Manager will help you select the aircraft that meets all your requirements. In your initial quotation, you will be offered three options, all of which will be carefully explained to you by your dedicated Account Manager. **Call:** +1 516 432 5901

- **What distance is your flight?**
- **How many people are traveling?**

We have created the following guide to give our clients information on the types of aircraft available as well as their suitability and specification. Should you require more in-depth knowledge, ACS have created the definitive guide to charter aircraft at <http://www.aircharterservice.aero>.
